Enter than that: point has to be painted; that costs \$2 to \$4 agailon. A gallon saved is \$2 to \$4 agailon. A gallon saved is \$2 to \$4 saved in labor-besides the paint.

Even that isn't all. A gallon prevoe pure that isn't all. A gallon puton at a cost of \$2 to \$4 a gallon and two gallons more put-on at \$2 to \$4 a gallon. Count all that The paint that wears double-costs tess by \$2 gallons of painting that's about \$15 a gallon for those superfluous gallons. That's as good as a double-sweet sugar, limit it?

Yours truly
